Mr. Howard endeared himself personally to the members of this Board by his unfailing courtesy and good cheer. His exemplary home life and as a public official was a lesson for good and an inspiration to us all.

TO THE HONORABLE BOARD OF SUPERVISORS,
Franklin County, Malone, N. Y.

Whereas, in the construction of the State highway leading from Plattsburg to Malone, a fill was made at Hawks Hollow, in front of my house, over six feet in height, thus rendering it extremely difficult and I may say impossible to drive to and from said highway.

This is especially true of the usual and direct route, in use prior to the making of such fill, and now it is of much labor and effort that we are able to reach the highway from any part of the yard.

And further, the pleasing appearance, beauty and attractiveness of the lawn and yard was very seriously injured in consequence of said fill and embankment.

Also, the water from said road carried much sand and dirt on to my lawn and into my cellar, thus giving me much annoyance and labor.

In view of all this, I believe, we have just cause for a grievance,

and we feel that the sum of five hundred dollars would inadequately repay the loss and damage so caused.

Therefore: I most respectfully appeal of your Honorable Body, composed of just, fair minded men for that relief which I am sure you will be ready and willing to accord.

And I most earnestly ask that you take such steps as may seem proper and necessary to ascertain all the facts connected with this matter, and I trust your Highway Commission will find it consistent to investigate the conditions and circumstances which make it necessary for this appeal.

All of which I most respectfully submit.

S. A. ELLSWORTH.

Minutes of the third day read and approved.

Clerk read:

FRANKLIN COUNTY JAIL
Malone, N. Y.

Inspected August 25, 1917. F. S. Steenberge, Sheriff.

There were 27 inmates in this jail on the day of inspection, which is about the average for the past year. The highest number reported by the Sheriff for the fiscal year ending June 30th was 31, and the lowest 10. The inmates were classified as follows:

Male adults held on peace warrants	2
Male adults awaiting trial	2
Male adults held for grand jury	4
Male adults held for illegal entry	4
Male adult witness	1
Male adults serving sentence	11
Male minor serving sentence	1
Female adults held for grand jury	2

This is a small three-story jail containing five cells on the first floor, five on the second, four rooms on the third floor, and four cells for women and witnesses on a gallery over the sheriff's office. It is at once apparent that this jail is inadequate to properly house those committed to it, and the State Commission of Prisons has frequently recommended that increased facilities be provided. There is no jail yard and those held for the grand jury are sometimes held for a considerable time without opportunity to exercise in the open. Three sessions of the grand jury are held annually.

After October 1st liquor will not be sold in the towns of Moira, Bombay and Malone, which includes the village of Malone. This, in the opinion of the Sheriff, will result in a decreased jail population. During the fiscal year ending June 30th, 182 males were committed for intoxication.

The county owns a jail farm of forty acres on which from six to eight prisoners have been employed daily throughout the summer. The sheriff stated that about thirty acres are under cultivation.

There are sixteen acres of hay, six of potatoes, two of beans, six of oats and a garden. The prisoners at the farm are in charge of an officer.

RECOMMENDATION

That adequate accommodations and a jail yard be provided.

Respectfully submitted,

JOHN F. TREMAIN,
Secretary.

Motion by Mr. Ramsdell: That the report be accepted and referred to the Committee on Correction and Reformation. Carried.

Clerk read:

Copy of report of the Prison Employment Commission of the Board of Supervisors of Essex County.

Motion by Mr. Genaway: That the Board adjourn until Monday, Nov. 19th at 9 o'clock. Carried.

FIFTH DAY

MONDAY, NOVEMBER 19, 1917

Board called to order by Chairman pro tem. at 9.30 a.m.

Roll call. All members present except Messrs. Hill and Riley.

Minutes of the fourth day read and approved.

Clerk read:

Communication from Civil Service Commission stating that the position of County or visiting nurse, in accordance with chapter 469 of the laws of 1917, has been placed in a competitive class and therefore would be under Civil Service Regulations.

Motion by Mr. Brown: That the communication be accepted and placed on file.

Chairman pro tem. excused the Committees until 9.00 o'clock tomorrow morning.

SIXTH DAY

TUESDAY, NOVEMBER 20, 1917

Board called to order by Chairman, at 9.15 A. M.

Roll call. All members present except Supervisor O. L. Wilson.

Minutes of the fifth day read and approved.

Mr. F. D. Kilburn, Chairman of the Home Defense Committee, appeared before the Board and rendered a report for the Committee

known as the Franklin County Home Defense Committee, showing the receipts and disbursements of an appropriation by the Board of Supervisors of Franklin County made upon the 21st day of April, 1917, as follows:

Appropriation by the Board of Supervisors	$1000.00
Amount expended to date	819.08
Balance on hand	$ 180.92

Mr. Kilburn explained in detail the work accomplished by the Committee and the work which was contemplated in the future, and also asked for an appropriation of $500.00, for further expenses that might necessarily arise.

Motion by Mr. Demars: That the report be accepted and put into the minutes of the Board, and the matter of the appropriation be referred to the Committee on Appropriations. Carried.

Remarks by Mr. Demars: In behalf of myself and the Board of Supervisors, I wish to thank the Committee for the Home Defense, for the concise way in which they gave their report, and I have no doubt but what they will continue to do this wonderful work which they have begun, and put their shoulders to the wheel, so that in the future Franklin County will be considered the most patriotic County in the State.

There is no doubt that the people of this County are doing magnificent work for the cause for which we are working; and the little paltry sum for which the tax payers of this County are asked to carry on this great work, should and will probably be gladly appropriated by this Board, and more if necessary, so that we may show that we have taken the right steps which should carry us to victory in this great war.

Clerk presented claim of Dr. W. N. McArtney, physician for the St. Regis Reservation, and stated that it was customary to appoint a Committee to audit the claim, such being a State charge.

Motion by Mr. Donahue: That the Chairman appoint a Committee to audit the claim of Dr. McArtney. Carried.

Chairman Redwood appointed as such Committee, Messrs. Donahue, Genaway and Riley.

Clerk read:

EXPENDITURES

The following is a statement of the expenses of the County Clerk's office from November 1st, 1916, to October 31st, 1917, representing the salary of the Clerk and bills against the office which have been O.K.'d by the Clerk.

Clerk's salary for one year	$4000.00
Books for recording the records of the office	171.75
Three Remington typewriters, authorized by your Board	280.00
A. P. Moses for repairing and mounting maps	53.50
Mrs. Mary Generous for cleaning the office	29.50
For telephone	58.09
For office supplies	74.90
For postage	90.00
For printing	78.50
Repair of book machine	16.00
Total expense for the year	$4852.24

During the past year the loose leaf system of recording records has been installed, which necessitated the expenditure of $280.00 for

new typewriters in place of the old book recording machines. The loose leaf system of records is very satisfactory, the records are much more neat, the work is lighter for the operator, and much more work can be accomplished by using ordinary typewriters than by the use of heavy book machines. In order to complete the books in the office, adapted to the use of book recording machines, it will be necessary to use one book machine for certain records for a time.

The Clerk has also in the past year had all the loose maps in the office repaired and mounted upon rolls, and indexed as provided by the law. The expense was $53.50.

The method of filing papers in the actions and special proceedings is being changed and a modern method installed, similar to the methods used in other Counties of the State. Under the old method the papers in each case have been filed, without any record being kept of them, in many different files scattered throughout the vault, and indexed according to the title of the paper filed. Under the new method being installed a docket book is kept by the Clerk in which is entered, under the title to the case, each paper as it is filed in that case, and then all the papers in that particular case or special proceeding are filed together in one package in one file, and so indexed in the docket book. The advantage of the new method is apparent, as not only is a record kept of every paper filed, but a searcher can readily find all the papers in a given case in one file, rather than scattered throughout several files.

As for the finances of the office I might state that there is a balance to the credit of the County Clerk's salary fund for the fiscal year ending October 31st, 1917, of $1,111.17, which includes the receipts of the office for the month of October, 1917.

I would recommend an appropriation of $700.00 for the expense of the office for the ensuing year.

All of which is respectfully submitted,

F. R. KIRK,
County Clerk.

Nov. 1st, 1917.

State of New York. ss.
County of Franklin.

F. R. Kirk, being duly sworn deposes and says that he is County Clerk of Franklin County, New York, that he has read the foregoing report and knows the contents thereof, and that the same is true to the best of his knowledge and belief.

F. R. KIRK, Clerk.

Subscribed and sworn to before me this
20th day of November, 1917.

Notary Public.

Motion by Mr. Selkirk: That the report be accepted and referred to the Committee on County Clerk's Books. Carried.

Clerk read

REPORT OF THE SURROGATE

To the Honorable Board of Supervisors of Franklin County:

In accordance with the provisions of law and the resolution of the Board of Supervisors, I herewith hand you my report for the year 1917, together with a statement of the amount of fees received by the Clerk of the Surrogate's Court as prescribed by law.

I also attach hereto a statement of the Insanity cases which came before the County Court during the past year.

I would again call your attention to the fact that in the near future some arrangement will have to be made to increase the capacity of the filing vault in the Surrogate's office. The new filing cases which were put in some years ago will be filled during the coming year, and some arrangement or plans should be made to increase the capacity of this vault, or for the construction of a new vault.

By reason of the war tax the expenses of the office, I assume, during the coming year will be somewhat increased over that of the past year. The increase on stamps alone will be from $20.00 to $25.00, I think. The printer is charging more for the blanks because he claims the paper is higher, and labor is higher, and typewriter supplies are also increasing rapidly. However, I think that by rearranging the blanks for the office that I can cut out some of the blanks now used, and also by changing the form, substitute a blank containing one page in place of several that now contain two pages, and in this way reduce somewhat the expenses for this item, so that an increase in the appropriation for office expenses of $25.00, I think, will be sufficient.

The appropriation for the present year has not all been taken up, but there are some bills still outstanding which will probably come in sufficient to absorb the balance now on hand.

Last year your Honorable Board saw fit to increase the salary of the Clerk of the Surrogate's Court to $1,000. The salary of the stenographer of the Surrogate's Court has been fixed at $700.00 and has not been changed during the last nine years. The work of the stenographer is much more important, requires more skill and diligence than the work of the Clerk of the Surrogate's Court. Therefore, I will follow your example and increase the salary of the stenographer to $1,000 a year, as provided by the Code.

There is employed now in the office a Clerk of the Surrogate's Court at a salary of $1,000 and a stenographer at a salary of $700.00

per year. The stenographer also acts as stenographer of the County Court, without additional compensation.

All of which is respectfully submitted.

F. G. PADDOCK,
Surrogate.

Your Committee on Highways and Superintendent's Affairs, reports that the several claims listed below are all in proper form for audit and allowance by this Board, that each of the said claims in the opinion of your Committee is a just and legal charge against the County of Franklin to the amount indicated in the column headed, "Allowed," and your Committee therefore recommends that each of said claims be audited at the amount so indicated.

No.	Claimant and Assignment—Nature of Expense	Claimed	Allowed
67	C. A. Sallman, Right of way for State Highway, No. 5613.....	$100.00	$72.00

Communication of S. A. Elsworth relating to change of grade in State Highway No. 5613 which was referred to us for action is herewith returned with the comment that this Board has no jurisdiction in this matter. Mr. Elsworth's only recourse is to file his claim against the State, the County having no responsibility for any changes made in the grade of a State Route. We suggest that Mr. Elsworth's communication be either returned to him or kept on file, but that he be advised of that fact that his claim is against the State of New York, and not the County of Franklin.

Respectfully submitted this 22nd day of November, 1917.

THIRTEENTH DAY

MONDAY, DECEMBER 3, 1917

Board called to order by Chairman at 10.30 A. M.

Roll call. All members present except Supervisor Demars.

Minutes of the 12th day read and approved.

Clerk read:

Malone, N. Y., November 1, 1917.

To Stephen M. Howard, Supervisor of the Town of Malone, N. Y.

On October 25th, 1913, one Adam Loffler of Malone Village, pleaded guilty before me of petit larceny, in a case where George J. Elder of Malone was the complainant, and J. D. Robarge made the arrest. I sentenced said Loffler on that day to pay a fine of twenty-five dollars, and suspended the sentence so that he could have time to pay it. He paid seven dollars and fifty cents down to me, which left $17.50 for him to pay, and he was to pay $2.50 per week until his fine should be fully paid, and was to make such payment to Probation Officer H. A. Barrett. Sept. 28, 1914, Mr. H. A. Barrett paid me two dollars, and on February 3, 1915, Policeman J. D. Robarge for said Barrett, paid me two dollars more, which makes four dollars, which is all the money I have ever received from said Barrett in this case. Mr. Barrett told me once that he had a little money that he was going to pay me, but did not say how much, and he did not pay it before he went away from Malone, so I sent for Loffler and he claimed he had paid the whole

fine, but he could only show the receipts as follows, and he left receipts in my hands as follows:

Sept.	29, 1914	$2.00	
Nov.	13, 1914	2.00	Total paid $6.00
Dec.	10, 1914	2.00	
Jan.	28, 1915	2.00	
Feb.	12, 1915	2.00	
March	11, 1915	2.00	
May	12, 1915	2.00	
		$14.00 or rather $16.00	

As the words on the receipt of Nov. 13, 1917, state "Total paid $6.00" it appears that Mr. Bartlett has received sixteen dollars, and as he has never paid me or caused to be paid to me but four dollars, he appears to have in his hands twelve dollars of this fine of Adam Loffler, which money belongs to the Town of Malone. These receipts listed above purport to be signed by H. A. Barrett, are apparently genuine, and show that such sums were received from Adam Loffler, and I now have them all in my safe as Mr. Loffler loaned them to me.

Yours respectfully,

FRANK BIGELOW, Police Justice of Malone, N.Y.

Motion by Mr. Howard: That the communication be referred to the Committee on Correction and Reformation. Carried.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS OF FRANKLIN COUNTY.

RESOLUTION offered by Mr. Ramsdell.

WHEREAS, By chapter 469 of the Laws of 1917 it is required that this Board take action with regard to the building or leasing and maintaining a Tuberculosis Hospital for the care of those afflicted with tuberculosis within this County, and

WHEREAS, There are already in Franklin County at least five public Sanatoriums which care for and treat tubercular patients, and in addition thereto an innumerable number of private places which accommodate and treat tuberculosis patients, and this County has at the present time eleven tuberculosis patients in institutions in the County which are being cared for at the County's expense, and has in the past and will continue to pay the expense of all those needing treatment for tuberculosis, and

BE IT FURTHER RESOLVED: That the State Department of Health be requested to defer action in the matter of requiring this Board to secure a site and building plans at this session, and that the State Legislature be requested to amend the law at the coming session so as to exclude Franklin County from the operation of this Law.

Motion by Mr. Brown: That the resolution be adopted. Carried.

Motion by Mr. Selkirk: That the report be adopted and referred to the Committee on Appropriations. Carried.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Committee appointed to examine and audit the accounts and books of the Franklin County Road Commission respectfully submits the following report:

First—We have examined all the vouchers and payrolls, and find that they have been duly audited by Mr. Oakes, the official auditor and by Mr. Gick, the State Auditor, and that all said vouchers have been signed by a majority of the Franklin County Road Commission and are correct in every respect.

Second—The account books have been kept and classified as heretofore, which makes it very convenient and easy to audit; but inasmuch as there seems to be each year a difference in the balances as shown by the books of the Road Commission and those of the County Treasurer due to items of interest credited by the County

Treasurer which the Road Commission does not handle, there being a difference in the Maintenance Fund of $1.60, and in the Construction Fund a difference of $4.92 greater in the Treasurer's account than the Road Commission's account to Nov. 1, 1917, which we recommend that the Road Commission credit to the respective accounts, thus showing the same balance as the County Treasurer to Nov. 1, 1917.

And we further recommend that the County Treasurer render a monthly statement of the debits and credits and balance in the county road accounts to the County Road Commission that they may be able to check the accounts monthly instead of annually as heretofore, and thus credit any items of interest received or paid out by the County Treasurer in their funds, to the end that both offices show the same balance at the end of the year.

Third—We find that the amount estimated to be provided by the County for maintenance of County Road system is conservative and must be raised if our system is to be maintained as it should be, and therefore we recommend that the sum of Forty Thousand Dollars be raised and included in the tax budget for the year for the purpose of maintenance of said county road system.

Fourth—We also find that the amount stated to be necessary to be raised for the purpose of paying bonds and interest on bonds issued for the purpose of construction of said county road system should be raised.

THEREFORE, We recommend that the sum of $21,250.00 for the purpose of paying interest due on said bonds and the sum of $10,000 for the purpose of paying bonds due March 1, 1918, be raised and included in this year's tax budget.

The report being self-explanatory, we feel it contains all other information that this Committee could furnish.

Respectfully submitted,

L. P. DEMARS,
H. N. RAMSDELL,
F. R. WILSON.

Motion by Mr. Bowen: That the report be adopted and referred to the Committee on Appropriations. Carried.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS.

Gentlemen: I wish to call your attention and also offer a suggestion in regard to the County's automobile. This car with its limited seating capacity is not suitable for the use of the Commission. Taking into consideration a thorough overhauling, together with new tires, which will cost approximately $250.00, I would suggest

that your Honorable Board authorize the Commission to exchange for a larger car if in their judgment they can bring about a satisfactory deal.

Very truly yours,

H. A. GRAY, County Superintendent.

Motion by Mr. Demars: That the communication be referred to the Committee on County Superintendent's Affairs. Carried.

Clerk read:

Your Committee on Justices, Coroners and Constables' Accounts reports that the several claims listed below are all in proper form for audit and allowance by this Board, that each of the said claims in the opinion of your Committee is a just and legal charge against the County of Franklin to the amount indicated in the column headed "Allowed," and your Committee therefore recommends that each of said claims be audited at the amount so indicated.

Your Committee on Correction and Reformation in connection with the submitting of our report for the auditing of bills which is appended hereto, wish to state the following:

No. 1. We have read the recommendation of the Sheriff for the purchase of the Hutchins property for the purpose of a yard for the jail, and have interviewed Mr. Hutchins and his attorney about the matter, and others including the Sheriff. As a result we would recommend that if the Hutchins property could be purchased at a reasonable figure, that it be purchased by the County for the purpose of the County.

State of New York,
State Probation Commission,
Albany, N. Y.

Mr. Charles J. Riley,
Chairman, Committee on Correction and Reformation,
Board of Supervisors, Franklin County,
Malone, N. Y.

Dear Mr. Riley: We have seen your former County Probation Officer, Mr. Barrett, in New York City and have gone all over his records and accounts. He advises that he sent last week to the Board of Supervisors a complete statement of the expense money due him, together with a brief report on the completion of his probation work. He has turned over to this Commission all of the records and accounts and other matter pertaining to his office and we are forwarding these to Judge Paddock to be turned over to the newly appointed county probation officer. We shall do everything within our power to assist the new officer in taking up the work where it was left off and in carrying it on successfully and satisfactorily to the Board of Supervisors.

I trust that the accounts sent you by Mr. Barrett have arrived and that they are satisfactory to the Board. If not, please advise me and I shall take the matter up again with Mr. Barrett and see that these matters are properly adjusted.

May I again earnestly request your Committee to recommend an increase to $600.00 at least, in the salary of this position so that more time may be devoted to the work by the newly appointed officer and so that it may be carried on more efficiently. The work is of the greatest importance and economy to the County, if well done.

Assuring you of our desire to co-operate with the Board of Supervisors in every way possible, I remain

Yours very truly,

CHARLES L. CHUTE, Secretary.

Motion by Mr. Genaway: That the communication be accepted and placed on file. Carried.

TWENTY-FIFTH DAY

WEDNESDAY, DECEMBER 19, 1917

Board called to order by Chairman at 9.45 A. M.

Roll call. All members present except Supervisor Ramsdell.

Minutes of the 24th day read and approved.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Committee on Education and Charities respectfully recom-

mends that the following amounts be raised and included in the County Tax Budget of 1917, as follows:

For temporary relief of Poor, County House and Farm and County at large, $28,000.00, of which there shall be immediately available $2,000.00.

For repairs to County Buildings on the County Poor Farm.$ 500.00

For tubercular poor fund..... 1,000 00

The amounts recommended to be appropriated are larger than last year by $2,900.00. This is caused mainly by the increase in cost of every article consumed or furnished the poor. The increased prices are from 25 to 50 per cent.

Motion by Mr. Adams: That the report be adopted and referred to the Committee on Appropriations. Carried.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your special Committee appointed for the purpose of looking into the accounting system of the County and communications received from the State Comptroller, beg to report that in their opinion balances as of November 1st cannot very well be transferred to a general fund, because to do so would necessitate either an authority to re-appropriate from said general fund for the different purposes, or an immediate appropriation to carry on the work of the County to such a time as the appropriations became available through the collection of taxes. We find no real benefit to be derived in transferring balances back and forth as a general proposition. The only transferring that should be done is when a special fund appropriated has served its purpose.

Dated this 18th day of December, 1917.

Respectfully submitted,

L. P. DEMARS,

CHAS. J. RILEY.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your special Committee appointed for the purpose of looking into the matter of Mr. Luther E. Whitney's bill for work done during the past three years in the County Jail, respectfully report.

First. We have investigated the work done in the premises and find that besides the work performed to maintain the general unkeep of plumbing, carpenter work, mason work, etc., there has been new construction done by the said Mr. Whitney for which he has received no pay.

Second. Upon further investigation we find that during the three years mentioned there has been no expenditures made for labor or service of the kind mentioned in said bill by the County, nor do we find any such bill rendered for such service. In other words, the County has not paid any money for service or work rendered in that class of work—Mr. Whitney having done it all.

Therefore, we recommend that the bill of Mr. Whitney be audited for the sum of $300.00 and paid to him accordingly.

Respectfully submitted,

Motion by Mr. Selkirk: That Andrew Bush be appointed Janitor of County Buildings for the ensuing year. Carried.

Clerk read:

Supervisor S. M. Howard,

Malone, N. Y.

Dear Sir: I have examined Claim No. 282, Luther E. Whitney against the County of Franklin, pursuant to your request to determine if it is a legal claim which the Board of Supervisors may audit.

By section 9 of chapter 12 of the laws of 1907, the sheriff may appoint an under-sheriff for the care of the prisoners and persons detained in the jail "and other necessary services", whose annual salary shall not exceed six hundred dollars, subject to the approval of the Board of Supervisors. I am informed that Mr. Whitney's salary as Under-Sheriff during the time for which the claim is made has been six hundred dollars, the maximum amount authorized.

Section 28 of Article 3 of the State Constitution is as follows, "The Legislature shall not, nor shall the common council of any city, or any Board of Supervisors grant any extra compensation to any public officer, servant, agent or contractor." Mr. Whitney is a public officer under the definition given in the Public Officers' Law. In discussing the meaning of this constitutional prohibition, the Court in the case of Porter vs. Fletcher, 153 A. D. 472, says, "The

evils ought to be remedied by this constitutional provision seems to be an increase of compensation for service theretofore rendered which would be in the nature of a gratuity."

It seems to me that the auditing of this bill in view of the above act and the constitutional provision would be a violation of the law.

The courts have held that the jurisdiction to audit by the Board of Supervisors is limited to the powers conferred by statute, (Supervisors of Richmond vs. Ellis, 59 N. Y., 620.) An illegal claim against the County is not made legal by its audit by the Board of Supervisors. (People ex rel Tracy vs. Green, 47 How. Pr. 382.)

There is another objection which must also be considered. By section 24 of the County Law it is provided as follows: "No account shall be audited by a Board of Supervisors or by a committee thereof, or by superintendents of the poor, unless it shall be made out in item and accompanied with an affidavit that the items of such accounts are correct and that the disbursements and services therein have been in fact made, etc." This account is not itemized as required by this section, and is not in proper form for audit.

The latter criticism might be cured by making out properly itemized bill, but the objection as to the constitutional question could not be avoided in my opinion.

Respectfully yours,
GEO. J. MOORE,
Counsel for the Board.

Motion by Mr. Howard: I move that the Board reconsider the audit of the claim of Luther E. Whitney audited yesterday at $300.00 and that the claim be disallowed as illegal.

Upon call of the roll, all members voted in the affirmative.

Chairman declared the motion carried.

Motion by Mr. Hill: That the County Treasurer's County Bond be fixed at $50,000.00. Carried.

Chairman excused the Committees until 2 P. M., when they shall meet as a Board of Canvassers, and to re-convene at 2.30 as the Board of Supervisors.

TO THE HONORABLE BOARD OF SUPERVISORS:

Your joint Committee on County Buildings and Correction and Reformation appointed for the purpose of interviewing Mr. Frederick Hutchins, owner of the lot adjoining the County lot on the north, with the view of purchasing said lot, respectfully reports:

We have interviewed Mr. Hutchins and had several meetings and discussions with him about the sale of the lot to the County, and as a result we find that Mr. Hutchins is willing to sell his lot to the County for the sum of $5,000.00, subject to a lease of the same to Louis Keys which expires on April 1st next, and also subject to his right to remove the dwelling house, part of the building on the lot, which would leave the garage part of the building to go with the lot.

The Committee recommends the acceptance of Mr. Hutchins' proposition and the purchase of the property upon these terms.

We would recommend that the Chairman of the Board be authorized to make a contract with Mr. Hutchins for the purchase of the property, the deed to be delivered and the money paid April 2, 1918.

We further recommend that the County Treasurer be authorized to borrow the sum of $5.000 on April 2, 1918, for the payment of the purchase price, and that the same be paid to Mr. Hutchins by the County Treasurer upon the requisition of the Chairman of the Board.

REPORT of Committee on County Treasurer's Books.

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Committee on County Treasurer's books examined and audited the books of the County Treasurer and hereby submits the following report.

We have examined the books, vouchers and records of said Treasurer from Nov. 1, 1916, to October 31st, 1917, both dates inclusive and find receipts and disbursements to be in accord with said County Treasurer's report filed with the Clerk of the Board and all vouchers seem to be correct with the following exceptions:

Nov., 1916. Supreme Court Order No. 36 overpaid $2.00, same has been refunded by Deputy Clerk and paid over to County Treasurer, receipt hereto attached.

Feb., 1917. Check No. 11760 for $16.00, paid by County Treasurer to S. E. Samuels for supplies without Purchasing Committee order and afterward same bill was paid on Purchasing Committee order. Mr. Samuels has been requested to refund this amount but as yet has not complied with the request.

In salary fund check No. 903 to H. A. Gray, overpaid $.02.

Checks Nos. 918 and 919 to Mrs. F. S. Steenberge and Margaret Steenberge overpaid $.01 each.

Your Committee recommend that Mr. Samuels be again requested to refund the $16.00 which he has received in overpayment, and if same is not refunded in due time that our Attorney be requested to collect same from said Samuels.

We further recommend in special lunacy fund there seems to have been no transaction during the last two years and that in our opinion this account should be closed.

We further recommend that in the account of Treasurer's fees there seems to have been no transaction for the last year and that this account be closed.

We further recommend that each official be requested to render a statement of disbursements to the County Treasurer on the first day of each month, and that the County Treasurer also be requested to render to each official a statement of his account not later than the 15th of each month.

All of which is respectfully submitted.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Special Committee appointed for the purpose of securing options on sites for the proposed tuberculosis hospital in Franklin County, and also for the purpose of inspecting hospitals, respectfully report the following:

Mr. Chase, State Engineer, and Rev. Brown of State Charities Aid and Dr. McSweeney of the State Board of Health accompanied us and made inspection of the following sites: Armstrong property, Roys' farm, Jail farm of the County, the John Black property, the Hawley property, the King property, Fletcher farm, Albert Paye property, Fitzgerald property, Esperance farm, Bryam property, McCarthy property, Otis site, Charles Young property, Frank Smith property, Ramsdell property, Twaddle property, Young property, Blue Mountain House, Day property. Dr. McSweeney's report is attached to and made a part of this report for filing.

Your Committee also inspected the property owned by Mrs. Margaret Merrill, known as Merrillsville, in the Town of Franklin. This property is located about six miles from Loon Lake station and contains 395 acres with the following buildings: the main building which contains fifteen rooms, ten sleeping rooms, two dining rooms, a kitchen and living room with a large porch on the east and south sides. There is a laundry building with laundry in the basement, six toilets, three complete baths, five sleeping rooms, a living room and a porch with eastern exposure. It is 210 feet

from the main building and was built two years ago. There is a bungalow with four rooms and four sleeping porches about fifty feet east of the laundry. There are also 20 complete tents on the southern side looking east, a large two story and basement and a cooler, store house and ice house combined. The altitude of this property is 1750 feet and about 200 hundred acres of the land is under cultivation. The price of the property is $15,000.00, this price includes furniture and equipment. Your Committee does not recommend this property on account of buildings which do not conform to state requirements, also its inaccessibility.

Your Committee also inspected the F. G. Tremble property in the town of Harrietstown about four miles north of Saranac Lake. This property consists of 150 acres of land and is known as Highland Lodge. It has a large house and annex with 20 sleeping rooms, hot and cold water, baths, toilets, etc. The water supply is from springs forced up by a ram. There are four large barns, a granary and hog house. The farm and house are completely equipped with furniture and necessary machinery. The price is $14,000.00. Your Committee does not recommend this property as the buildings do not conform to the State requirements and would have to be entirely replaced.

Upon the advice of Dr. McSweeney, your Committee visited the following tuberculosis hospitals: Montgomery County Hospital at Cranesville; Fulton County Hospital at Gloversville; Schenectady County Hospital (Glen Ridge Sanatorium) at Schenectady; Bowne Memorial Hospital at Poughkeepsie, Dutchess County.

Montgomery County Hospital at Cranesville is situated about four miles from Amsterdam. The farm contains about 140 acres. This was originally a farm property and was purchased by the County at a price of $8,000.00. The County made use of the farm house for a tuberculosis hospital and have been from year to year making improvements until now the hospital has cost them about $34,000.00, and yet they do not have the ideal hospital. During 1916 62 patients were received. The average number of patients that year was 24. The hospital has a capacity of 29 beds. The total expenditures for maintenance during 1916 was $14,921.49, or a per capita cost of $1.69 per day. This does not include interest on the investment, insurance or depreciation, nor does it include salary of County Nurse, making an additional cost of over $4,000.00.

Fulton County Hospital at Gloversville, known as Summit View Sanatorium, is situated about five miles from Gloversville. This property was originally a farm and the house has been remodeled with a new annex containing the nurses' quarters. There are 24 beds in this hospital. A total of 67 patients were admitted during the year, there being an average of 23¼. The per capita cost per day of caring for the patients was $1.84. The total cost of maintenance during 1916 was $16,147. The hospital construction cost about $40,000.00.

Schenectady County Hospital or Glen Ridge Sanatorium is located about 8 miles from Schenectady and has been in operation about 8 years. The capacity is 65 beds. There were 61 patients in this hospital at the time of the Committee's visit. The farm contains 80 acres and general farming is carried on. The dairy consists of 10 cows. There are 3 horses on the farm which are used for general farm work. This year about 1,200 bushels of potatoes were being harvested on the farm. A total of 194 patients were cared for at this hospital during the year ending October 31st, 1916, at a per capita cost per day of $1.17. The total cost of maintenance during the year was $28,993.85. The construction cost of this hospital was about $60,000.00.

The Samuel W. Bowne Memorial Hospital at Poughkeepsie, Dutchess County, is not a County hospital. It was a gift to the City of Poughkeepsie by Mrs. S. W. Bowne, who has since helped to maintain the hospital. It has a capacity of 100 beds. At the time of the Committee's visit there were 104 patients. This hospital had an income from paying patients during the past year of $11,045.27. In the other three hospitals visited by the Committee, the income from paying patients was too small to be considered as a beneficial factor. The total cost of maintenance of this hospital during the year 1916 was $39,627.16 and the average daily cost per patient to the city was $1.25. The entire cost of this hospital was $250,000.00.

Owing to the comparatively large number of children among the patients in these hospitals, the State will require, sooner or later, the addition of a school properly equipped and maintained. The Glen Ridge and Poughkeepsie hospitals have just completed the erection of such schools.

Judging from the experience of other Counties where old farm buildings or other buildings were purchased and remodeled for use as hospitals, and they found them unsatisfactory in every instance, the committee does not recommend the purchase of property with a view of using any buildings already constructed for hospital purposes. The Committee further recommends that the question of accessibility be given due consideration if a hospital be built in Franklin County as the matter of transportation of patients and supplies is a large item in the expense of maintenance. The matter of accessibility would also greatly affect the visiting of patients by their friends.

In none of the counties visited by the Committee was there a tubercular hospital already in existence when the hospital visited was built, nor is there to-day. There seemed to be, therefore, a requirement in these counties for a tubercular hospital which does not exist here. In Franklin County there are already seven public tuberculosis hospitals and sanatoriums, besides a large number of private health resorts where tubercular patients are receiving treatment which conforms to the State Health requirements, also that

at present $1,000,000 is available for the purpose of erecting another tubercular sanatorium at Gabriels. It would seem that a great saving could be effected by continuing as at present to contract with some of the existing hospitals for the care of our County tubercular charges, so long as equally desirable results could be secured, it would seem to be a part of wisdom and economy to continue our present policy in this respect.

Another matter which should be considered in this connection is the fact that Franklin County has been and is a resort for tubercular patients, thereby increasing our death rate to a degree far above normal. For instance, a recent health report from a town in the southern part of the County gives 141 new cases of tuberculosis in the district, showing that health seekers are still coming to the mountains for recuperation, instead of taking the cure at home. This shows that our County is burdened by tuberculosis cases gaining residence in this County and causing a material increase in our death rate.

Your Committee further states that they have secured an option of the John Black property which is one of the sites which the State Department of Health have approved, as being fitted for the site of the tuberculosis hospital. Under said option, the property can be puchased for $5,000.00 and the option to continue for sixty days from December 6, 1917. The option is hereto attached to this report.

Your Committee further recommends that your Honorable Board petition our Senator and Assemblyman to introduce a bill in the Legislature providing that people who are infected with tuberculosis shall not become residents of this County so far as receiving treatment for tuberculosis at County expense is concerned, for a term of at least five years.

Respectfully submitted,

H. N. RAMSDELL,
S. M. HOWARD,
F. W. HILL,
Committee.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS:

Your Special Committee on County Tuberculosis Hospital respectfully reports as follows:

Pursuant to the direction of the Board your Committee has corresponded with the following Sanatoriums within the County with respect to treatment of tuberculosis patients, viz.: Sanatorium Gabriels located at Gabriels, Stony Wold Sanitarium at Lake Kushaqua, St. Mary's on the Lake at Saranac Lake, and Rainbow Sanitarium at Rainbow Lake. We have received communications from

each of these sanitariums in which they state that they are willing to and will be pleased to receive tuberculosis County patients at rates which we think are reasonable considering the care, treatment and medical attendance. Sanitarium Gabriels and St. Mary's on the Lake are willing to take patients in the advanced stages of the disease, both male and female. Rainbow Sanitarium will receive male patients in the incipient stages, and Stony Wold will receive girls and women in the incipient stages.

We feel satisfied that the facilities which these Institutions have are ample and sufficient for the care and treatment of all tubercular patients which it may be decided should receive treatment at the expense of the County.

The Board has recently adopted a resolution providing for the hiring of a County Tuberculosis Nurse to be paid by the County, who will commence her duties February 1st next or so soon thereafter as the Civil Service Commission rules will permit of a selection being made of such Nurse. We make the following recommendations:

1. That the County Superintendent of Poor be authorized to contract with the institutions above mentioned for the care and treatment of such tubercular patients as the County Tuberculosis Nurse and Superintendent of Poor may determine should receive treatment, and that the expenses of such care and treatment be a County charge and the bills therefor be audited by the Board of Supervisors at its annual sessions.

2. That this Board submit a proposal of the action taken with respect to the care and treatment of County tuberculosis patients to the State Department of Health for its approval, such proposal to be as follows:

State Department of Health,
Albany, N. Y.

Gentlemen: The Board of Supervisors of Franklin County pursuant to the authority granted by Chapter 469 of the laws of 1917 herewith subscribe for your approval a plan for the care and treatment of their tubercular patients as follows:

1. The Board has already adopted a resolution, a certified copy of which is hereto annexed, providing for the employment of a County Tuberculosis Nurse at a salary of $1,000 per year and traveling expenses while away from the central office, said Nurse to commence her duties February 1st next, and an appropriation for salary and expenses of such nurse has been made.

2. The County Superintendent of Poor of Franklin County has been authorized to contract with the following institutions located in Franklin County for the care and treatment of County tuberculosis patients, viz.: St. Mary's on the Lake, Sanitarium Gabriels, Stony

Wold Sanitarium and Rainbow Sanitarium, for such patients as the County Superintendent of the Poor and the County Tuberculosis Nurse may determine should receive care and treatment whether they are in the advanced or incipient stages of the disease.

The Board of Supervisors feel that with the facilities which exist in these institutions in this County for the care and treatment of tuberculosis patients that all cases requiring treatment will receive prompt and generous consideration.

The Board hopes that the plans which have been adopted will meet with the approval of your Department.

Respectfully yours,

.....,

Chairman, Board of Supervisors of Franklin County.

All of which is respectfully submitted.

H. N. RAMSDELL, Chairman,
S. M. HOWARD,
F. W. HILL,
Committee.

RESOLUTION by Mr. Genaway:

TO THE HONORABLE BOARD OF SUPERVISORS:

WHEREAS, By Article 26 A, Section 695 of Chapter 567 of the Laws of 1916, known as the Education Law, it is required that physical training be taught in the several schools of this State, and requiring the Board of Education and Trustees of the several schools and school districts in the State to employ a special instructor for that purpose exclusively, and

WHEREAS, The expense of the employment of such a special physical instructor, who visits the several schools in the rural district for only a few minutes each week is working unnecessary and great hardship and expense particularly to the rural towns in the State, and

WHEREAS, We heartily approve and commend proper physical instruction in said schools, but believe that it should be taught daily by the teacher or teachers in charge of said schools, and that regular daily exercise is more beneficial than weekly exercise, and that it can be accomplished with less expense by having the same taught by the several teachers instead of under the present system.

Now therefore be it RESOLVED: That the Senator and Assemblyman from this District be and hereby are requested to secure the passage of an act amending the present Education Law, and abolishing the position of teacher of physical training outside of the several cities and villages of the State, and requiring in place thereof that proper physical training be taught by the several teachers in charge of said schools.

Chairman Redwood thanked the Board for the universal courtesy extended to the Chair by every member, and Supervisor Howard said that in behalf of the Board he wished to give public expression of their appreciation of the courtesy and fairness of the presiding officer.

Attorney George Moore then said that the session that was just closing had been a most arduous one—there were many measures of importance that required careful and tactful handling, and he had noted the fact that whenever he visited the Chamber whether in the day time or at night he always found the Supervisors busy with their work. He especially made mention of the skillful manner in which the tubercular hospital and other important propositions had been met, and how a large amount had been saved to the County, which he believed would be thoroughly appreciated by the taxpayers. He also made mention of the fact that more resolutions had been passed asking for needed state legislation than had ever come before any previous Board.

Motion by Mr. Genaway: That a vote of thanks be given to the Chairman, Clerk, Stenographer and Attorney for the Board for the efficient manner in which they discharged their several duties. Carried.

Motion by Mr. Howard: That the Board of Supervisors of Franklin County adjourn sine die. Carried.

SEVENTH ANNUAL REPORT

OF THE

Franklin County Road Commission for the Year Ending November 1, 1917

To the Honorable Board of Supervisors:

In presenting our report for the season of 1917 it is intended as a statement to your Board and the citizens of Franklin County of what we are spending, how we are spending it, and where it is being spent, and is not an engineering treatise upon highway construction. This report covers the fiscal year of the County from Oct. 31st, 1916 to Oct. 31st, 1917, inclusive and shows the progress we have made in the highway work of giving Franklin County a system of highways, bridges and culverts, together with their care and maintenance. Conditions in 1917 have hit road building in a very decided fashion. With labor and teams advanced in price 40 per cent, advances in cost of machinery repairs, tools and all appliances used in our work, we have necessarily failed to repair and resurface as much road for a dollar as formerly. The scarcity and high price of common labor, the wet spring and fall and other conditions with which we have had to contend have also contributed their share toward raising the cost of our finished product. Nevertheless, fair progress has been made. All of the work completed and under way has been built under the day labor plan by our own forces and under our own supervision. We have maintained only two patrolmen, one from Chateaugay to Burke to Malone and one from Malone to Duane; one patching crew that worked on the different roads in the County where conditions demanded. Also one crew that crushed the stone, patched, oiled, ditched, and made general repairs on road from Saranac Inn to Altamont town line. One oiling crew that oiled and placed cover coat on all roads that were oiled in this County. Three (3) resurfacing crews and two (2) construction crews. In fact we are doing everything in our power to economically keep our roads in a sightly and usable condition for all kinds of traffic during all seasons of the year.

The following is a list of the amount of work accomplished on different roads, the cost of which is shown under the towns which they traverse:

NEW CONSTRUCTION

and

RESURFACING WITH BITUMINOUS MACADAM

Moira to St. Lawrence Co. line, water bound macadam 1.25 miles which completes road of 2.75 miles in Town of Moira, 10 feet wide, 6 inches thick, two course work 3 inches bottom 3 inches top 6 inches sub-base in places.

Fay to Fitzpatrick Corners, 1.3 miles bituminous macadam. New construction 6-inch sub-base approximately ½ mile 10 feet wide with 4-inch bituminous top.

Hunters Home Road, Town of Franklin. Resurfacing new bituminous top 2 miles. Beginning at Town Road running north through Vermontville, 10 feet wide, average 4 inches thick.

Dickinson town line through St. Regis Falls, 2.5 miles. Resurface new bituminous top, one new culvert. 700 lin. ft. sub-base 9 inches thick.

Chateaugay to Banner House. Beginning at the corporation line running south 1.5 miles. Resurfacing new bituminous top. 700 lin. ft. new sub-base.

OILING AND PATCHING

Frys Corners to Bombay. 3 miles oiled and patched.

Fort Covington Centre to Cook's Corners. Oiled and patched—4 miles.

Cook's Corners to Fitzpatrick's Corners to North Bangor Station. Oiled and patched—5 miles.

Fitzpatrick's Corners toward Westville. Oiled and patched—2 miles.

Dickinson Centre to Tebo's Corners. Oiled and patched—2 miles. 800 lin. ft. new bituminous top at R. R. crossing.

Dickinson Centre toward Moira. 1 mile bituminous top put on in 1915, oiled and cover coat.

Malone to Chateaugay. 1.5 miles bituminous top put on 1914, oiled and cover coat.

Shepard Bridge to Duane. 10 miles, hills widened, ditching, patching, and oiling with cover coat. Also cobble gutter at Chasm Falls.

Brandon to South Bangor. Patching, oiling and cover coat, 3 miles.

Santa Clara Station. 2 miles, beginning at Santa Clara Station going northwest two miles toward St. Regis Falls, patching and oiling with cover coat.

Saranac Inn to Wawbeek, 9 miles; **Wawbeek to Altamont Line,** 4 miles. Patching, ditching and general repairs. 800 cu. yd. crushed stone used. 3,750 gals. Cold Patch material used. Road from Saranac Inn to Wawbeek was oiled with cover coat, 15,000 gals. used.

Hunters Home toward Vermontville. 7 miles patched with material on road.

Forest Home Road. Patched as far as money available would allow.

Gravel Road from Burke Town Line through Constable to Westville Centre. Approximately 9 miles, honed and patched with gravel.

RECOMMENDATIONS

In making our recommendations for the season of 1918, we are confronted with the usual amount of maintenance and repair work that is required to maintain a system of roads 135 miles in length. Roads that we are obliged to resurface we are building in sections each season as far as money available will permit. We have commenced resurface work in the town of Franklin on the Hunters Home Road which should have an additional two miles or more next season as the road will have to be resurfaced its entire length, which at the present prices of labor and material costs approximately $5000 per mile.

Two miles or more should be added to the Chateaugay Lake Road as this road also will have to be resurfaced its entire length.

And not less than 2½ miles on road running south from Moira toward Dickinson Centre. In addition we have the following that are in a very bad condition. The road from Altamont town line to Wawbeek, four miles in length, is in want of a new bituminous top.

The Malone-Burke-Chateaugay road running east from Malone 11 miles will need to have several connecting links of asphalt top built next season and in the future this road will have to be resurfaced its entire length except the pieces that have been built.

The following roads should be oiled and patched next season without fail if we are to preserve them, as they are water bound macadam that have never received oil or repairs.

Fort Covington Centre to Fry's Corners, 2 miles in length.

Bombay to Russell's Corner toward Hogansburgh approximately 4 miles.

Moira to St. Lawrence County line, approximately 3 miles.

Santa Clara toward St. Regis Falls, 2 miles.

The Gravel Road in Westville and Constable should have extensive repairs, together with the general repairs on all other roads that make up our County system of 135 miles in length.

On the County Road going east from Malone we have a 5 ft. culvert in bad condition. This structure has gone out during two different springs and will have to be built over on different lines with wing walls at a cost of approximately $500.00.

In compiling our recommendations for the season of 1918, we do not take into consideration the Wawbeek Road. It would be well if your Honorable Board could bring about special legislation to relieve the County of the cost of maintenance, which would only be just, as this road will very soon become a main automobile route upon the completion of the Long Lake-Hamilton County Line and Moody-Hamilton County Line road. This road from Altamont town line to Wawbeek, four miles in length, is very rough and narrow for the traffic that it will have to care for. It should be widened to 12 feet in order to be safe with a bituminous top, which under present conditions will cost at least $6,000 per mile. In making our estimate of amount of money necessary for 1918, we did not include this work, but only included a sufficient amount to do the ordinary patching and maintenance.

ESTIMATE AND RECOMMENDATION

To accomplish the foregoing work as recommended, it will, in our judgment, require at least $60,000.00, and we recommend that the Board of Supervisors appropriate the sum of $40,000.00 for maintenance of County Roads for the highway year of 1918.

With the 50 per cent of State Aid to be received as provided for by Chapter 137 of the Laws of 1911, it will furnish the estimated amount of $60,000.00.

4000 gals. on road from Malone to Burke. Cost $380.00.

MATERIAL ON HAND AND PAID FOR RESURFACE WORK IN 1918

Asphalt

Approximately 21,050 gals at Chateaugay. Cost $1883.98.

3,617 gals. at Malone. Cost $323.72.

MOTOR TRUCK

Mileage covered during season, approximately.....8,804 miles
Number of days worked .....186 days
Approximate amount saved County during season

COMPENSATION INSURANCE

This season's compensation insurance dated June 16, 1917, covering all classes of labor on County road work, carries an estimated premium of $284.21 on an estimated pay roll of $7,100.00. This policy was written to expire June 16, 1918, but the Insurance Company has consented to extend same to Oct. 31, 1918. Having same expire at the end of our fiscal year will be a great convenience as the payrolls and vouchers will then be ready for audit, and amount of actual earned premium can then be determined.

The earned premium, or premium on total actual pay roll for year June 16, 1916, to June 16, 1917, was.....$562.31
Amount premium paid session of 1916..... 356.80

Leaving a balance due Insurance Co.....$205.51
Which should be paid.

NINTH ANNUAL REPORT

OF THE

County Superintendent of Highways for the Year Ending October 31st, 1917.

To the Honorable Board of Supervisors:

The undersigned County Superintendent of Highways would respectfully submit the following report together with a few suggestions as to the future:

From observation in going over some of the town roads in the different towns that have a heavy soil, I have found a deplorable condition. The roads are flat without ditches and in my opinion would be almost impassable in the wet seasons of spring and fall. There should be a remedy for this and I would suggest that we do more of the old fashioned turnpiking and deep ditches, making the top of road wide enough for safe traffic. This will give you a passable road under certain conditions and when you get ready to make permanent improvements you have a foundation which is compacted and ready for your work at a minimum cost.

Before building a road, we should look ahead past the construction period to the maintenance which is to follow after and endeavor to get a vision of how that road should look three years hence. Knowing the traffic that will traverse a road, we can determine within reasonable limits what the life of any particular type of road will be and can also in like manner determine what the cost of maintaining that road should be. With such knowledge available it is folly to go ahead and construct roads that will not answer the traffic requirements. As soon as a section of permanent road or resurface is completed it seems, as if by magic, automobile trucks from all over the county at once learn of its location and seek it out. Therefore, in building a road upon which we have reason to believe there is even a prospect of a largely increased traffic, we should figure that the maintenance of this road will be much more costly than it would be under ordinary conditions. The traffic of the future will require roads with a suitable foundation that will hold your top in place. In order to accomplish this we must provide a suitable foundation. Sub-base bottom course when conditions de-

mand it on both Macadam and Gravel roads. One thing that stands out in bold relief here is the fact that the money is thrown away when put into cheap road building. Only the best construction pays in the long run and the best construction means expenditure beyond anything yet imagined. No roads are really good that are not lasting. The towns that have thought or that think otherwise are sure to be disappointed. We have a number of towns that have resurfaced old waterbound Macadam roads with bituminous top that are fine. Cold applications of Tarvia have been applied with good results and we should have more of it, especially before your waterbound roads start to ravel. A large number of concrete culverts and bridges have been built and the old wooden type of culverts is fast disappearing. Many plank floors on bridges have been removed and two by four scantling treated with a preserving oil or concrete floors have been substituted. Quite a number of our bridges are in need of repairing and Town Superintendents should give this special attention.

I would call your attention to letter sent Town Superintendents by the Commission at Albany in regard to painting bridges:

October 1, 1917.

To Each Town Superintendent of Highways:

Dear Sir:—

Steel, lumber, cement, labor, everything entering into the construction or repair of bridges costs much more today than formerly and this condition will probably continue indefinitely; therefore, make your budget ample to provide for labor and materials for proper maintenance of your bridges. By caring for your present structures your town will ultimately save money.

To preserve the strength of your bridges requires untiring watchfulness. The lack of paint, so conspicuous in many iron bridges, is inexcusable. Numerous iron or steel bridges of recent construction are today more unsafe than some of the older timber structures which have been properly protected. Rusting having once commenced, soon eats its way into iron or steel members and renders impossible the determination of the amount of uninjured metal or its maximum safe strain.

Around the bottom of the end posts and underneath the floor, dirt and moisture collect and the destructive forces are busy. Carefully scrape away all dirt and scale and cover the cleansed surface with a coat of good paint. One coat of good paint applied to a clean, dry surface is worth many coats of an inferior paint, or paint applied to a scaly or dirty surface, and lasts much longer. It never pays to slight a painting job.

Give careful attention also to the following: Keep rust and dirt

from the truss shoes that they may be free to move during temperature changes. A failure here may cause stresses greater than those caused by the total dead and live loads.

Watch the foundations. If undermined by the current, fill the cavity with concrete and protect the rip-rap to prevent future undermining. Straighten up the floor joists, if displaced by traffic. Carefully and regularly inspect your bridges and "do your bit" towards making safer highway travel in this State.

Yours very truly,

BENJ. J. RICE,

Third Deputy.

The amount of Motor Vehicles fees to be alloted in Franklin County to Nov. 1, 1917 is stated by the County Treasurer to be $10,048.61. Attention is called to paragraph 4 of Section 291 of the Highway Law in relation to disposition of registration fees, fines and penalties which reads in part as follows:

"All moneys received by the County Treasurer of any County pursuant to this article shall be used for the permanent construction or improvement of town highways only in such County as defined by Subdivision 4 of Section 3 of this chapter. The County Treasurer

shall, upon receipt of such moneys, keep an accurate account thereof, and shall furnish the Board of Supervisors of the County, upon request by it, with a certified statement of such receipts. The Board of Supervisors of the County shall, at a regular or special meeting, and by a majority vote, allot such moneys to one or more of the towns within such County, and shall by resolution appropriate for the use of such town or towns the moneys so allotted."

In a conversation had with the Third Deputy of the Highway Commission, it was stated that under no consideration must this money be allotted to more than three towns in the County. The State Highway Commission desire the money allotted so that it will accomplish the maximum amount of improvement.

TERM OF OFFICE OF TOWN SUPERINTENDENT

Attention is called to the following, namely, Section 42 of the Highway Law, amended by laws of 1917, to read as follows:

"The term of office of a town superintendent elected or appointed, as provided in this article, shall be two years. If such town superintendent be elected at a town meeting held at the time of a general election, his term of office shall begin on the Thursday succeeding his election, or as soon thereafter as he shall have been officially notified of his election, and shall have duly qualified. If such town superintendent shall have been elected at a town meeting held at any other time, his term of office shall begin on the first Monday succeeding his election. If such town superintendent shall have been appointed pursuant to a proposition adopted, as provided in the preceding section, his term shall begin on the first day of November, and the town board shall meet prior to that day for the appointment of such town superintendent.

"(2) The term of office of the town superintendent of highways heretofore elected at a town meeting held at a time other than that of a general election shall not be affected by this act, and his successor, elected at the first biennial town meeting held after this act takes effect shall not take office until the existing term expires. The term of his successor, as prescribed by section forty-two of the Highway Law, shall be shortened by the interval between the Monday following his election and the ensuing first day of November."

THE BOARD OF ELECTIONS OF FRANKLIN COUNTY.

MALONE, NEW YORK.

January 12, 1918.

To the Board of Supervisors of the
County of Franklin.

Gentlemen:

An amendment to the Election Law, enacted in 1917, requires a Board of Elections to make an annual report of its affairs and proceedings to the Board of Supervisors in January instead of December, as formerly. In compliance with that requirement we submit the following:

By the action of your Honorable Body, Mr. John Duffin became a member of the Board of Elections in place of Mr. Leslie M.

Saunders, and entered upon the discharge of his duties with the beginning of the year 1917. At the first meeting of the Board, held January 4, 1917, Mr. Duffin was elected President, and Mr. Proctor Secretary. Mr. Frederick J. Seaver has held over as Chief Clerk, and Miss Marjorie Steenberge was employed for a few weeks in the autumn of 1917 and also for a few days in January of 1918 in typewriting copies of the Enrollment Lists.

Other than these matters, the proceedings of the Board have been in the main of a routine character, and have consisted in the procurement and distribution of supplies for the Primary Election and for the General Election; in canvassing the vote cast at the Primary Election of September, 1917, in making copies of the Enrollment Lists for the several towns after having completed the Enrollment Books; and in executing other provisions of the Election Law.

As already reported to the Clerk of your Honorable Body, the expense of this Board for the year beginning November 1, 1916, and ending October 31, 1917, were $3,579.66, which is $2,436.64 less than they were for the preceding year, and $322.38 less than for the lowest year since the Board of Elections was established.

Because of the extension of the right of suffrage to women, most of the towns in the county will need to increase the number of their election districts this year, additional Boards of Inspectors of Elections will have to be created, and practically every item of expense incurred by this Board, with the exception of salaries, will be increased.

Respectfully submitted,

JOHN DUFFIN,
ALBERT H PROCTOR,
Commissioners of Elections.

Dear Sir:—

I desire to express through you to your Honorable Board my gratification at the hearty spirit of co-operation with the State Department of Health in the effort to determine the present available bed space for the care and treatment of tuberculosis in Franklin County.

With the possibility of some legislation at the present session of the Legislature regarding the county tuberculosis hospitals, I do not deem it advisable to take any definite action in regard to Franklin County at the present time.

FRANKLIN COUNTY JAIL, MALONE, N. Y.

Inspected August 16, 1918. A. A. Edwards, sheriff. The sheriff's wife acts as matron.

There have been no changes in this jail since the last inspection. On the day of inspection there were 9 prisoners, all males, classified as follows: Two held for the grand jury, 1 Federal prisoner and 6 serving sentence. The highest number this year was 14; the lowest, 4; and the average, about 10.

All available sentenced prisoners are employed on the jail farm. The sheriff took me out to the jail farm, which consists of 45 acres. The crops were looking fine and give promise of a good yield. They include 8 acres of potatoes, 2 of beans, 1½ of buckwheat, 8 of barley, 8 of oats, and ¾ of an acre of garden truck. The balance of farm was in hay. Two horses are kept for the farm work. More hay and grain are raised than needed by the horses. The balance of the hay will be sold and the balance of grain raised will be fed to pigs of which they have several.

The barn on the jail farm is in a very dilapidated condition and is not fit for storing the crops. A new modern barn should be constructed which could be done very cheaply by using what sound timber there is in the old barn and most of the labor could be by convicts. The board of supervisors at its next session should appropriate enough money to build a barn and also a small garage to accommodate the sheriff's car which he must use in the discharge of his duties.

A woman cook is employed, which is very commendable. The jail is large enough to accommodate the present population. I

found it clean throughout, showing good care.

Respectfully submitted,

MIAL H. PIERCE,

Commissioner.

TO THE HONORABLE BOARD OF SUPERVISORS:

On August 17th, 1918, the Franklin County Road Commission had the misfortune, through the cyclone, of losing its store house, 92 ft by 20 ft. with lean-to shed 12 ft. wide. The building was a wreck with very little salvage. We saved the galvanized corrugated iron cover and part of the large doors but most of the lumber was reduced to kindling wood.

Some suitable housing should be provided where machinery and tools can be stored and protected from the weather when not in use, and as an accessory to such storage there should be workshop facilities so that necessary repairs and overhauling can be done during spare time. It is well known that abuse wears out nearly every implement more than normal use.

We have taken up the cost of replacing this structure with one contractor and builder who estimates $3,000.00 to rebuild, which seems very much too large.

We respectfully submit the above and trust your Honorable Board will consider it and make provision to replace this building.

TO THE HONORABLE BOARD OF SUPERVISORS
FRANKLIN COUNTY.

Gentlemen:-

I herewith submit my report of the activities of the Probation Office for a period of 10 months beginning Jan. 1st., 1918, at which time I received my appointment, and ending Oct. 31, 1918.

During the first week in January the State Probation Commission sent Mr. C. A. Munger from their office to turn over the books and records of the former Probation Officer, Rev. H. A. Barrett, and further to give your officer instructions relating to the

work and duties devolving upon him and manner of reporting to the various officials, also methods of keeping records.

Twenty-two cases were taken over Jan. 1st., of which 14 were from the County and Supreme Courts and 8 from the Town and Village Justice Courts. Three of these cases were Juveniles being under the age of sixteen. However upon an investigation of the records of conviction I discovered that in 6 of these cases the period had expired and the persons should have been discharged. This was accomplished as soon as your officer had determined to his satisfaction that he had no authority over the persons and after advising with the Courts where they were convicted. Two of the cases I was unable to locate and they were discharged by order of the State Probation Commission after diligent inquiries had been made through boarding houses, former employers and Police Officials. I am of the opinion that they should not be classed as absconders, but that they moved away from the County during the time in which the office was vacant.

The records of the office were found to be incomplete and the first work of the office was to bring these up to date by going through the records of conviction in all cases and determining the status of each one by itself. Next an inquiry was conducted through various persons and officials as to the history and circumstances surrounding each case; thus the office was able to obtain about the same information relating to the cases taken over Jan. 1st as those who have been placed on Probation since.

The work of the office consists of inquiries into the history and circumstances surrounding the crimes committed by offenders and the persons themselves together with their families, interviews with their employers and persons who have knowledge of their conduct, home visits, the collection of money and receiving reports from probationers. All of these have to be verified as often rumors and reports come to the office which have no truth in them. Frequently the officer has to reprimand persons in his charge or take them before the Judge for this purpose. Two such cases have been taken before the Court and sentenced to institutions.

One of the most important duties of the office is the supervision of Juvenile Delinquents. Fifteen such cases are being looked after at the present time several of whom would have been in a reform school if there had been no officer and therefore a charge upon the State and County.

Twenty-five per cent. of the adults received from the Town and Village Justice Courts would have been committed to jail at the expense of the County, the community would have lost their labor and in some instances their families would have been a poor charge.

Not all of the cases are successful and such can only be expected when you fully consider the class with whom we have to deal. The success of the office should not be based entirely upon the money collected or the amount saved by not committing persons to penal institutions, but these taken together with the fact that in a large majority of the cases the defendant improves upon the opportunity given him and becomes a law abiding citizen.

The expense of the office for 10 months, other than the salary of the officer has been $112.05. This amount would have

been greater only that transportation has been with other County Officials at various times.

In conclusion I wish to express my thanks to the Courts in which I have worked, the County and Town officials and the numerous citizens who have co-operated most cordially with the office while I have been in charge.

Respectfully submitted this 1st day of November 1918.

FLOYD P. KING,

Probation Officer.

In view of the annual meeting which will be held on Tuesday, Dec. 3, I wish to extend to you a special invitation to attend on this occasion.

There will be a morning and afternoon session at the Armory. During the morning, there will be a business session, and in the

afternoon a very interesting program will be given by two very prominent speakers.

Dr. G. F. Warren, of the State College of Agriculture, has devoted a great deal of attention to various economic phases of the field of agriculture, and is prepared to deliver a very interesting and valuable address. Commissioner C. S. Wilson, before assuming the office of Commissioner of Agriculture, preformed big service in the field of horticulture through Central and Western New York, and is well qualified to speak on New York State agriculture. It is with great pleasure that I extend to you this invitation to attend the program, especially during the afternoon.

Honorable Board of Supervisors,

Malone, New York.

Gentlemen:

As the law requires that the annual report of the Board of Elections be made in January we desire at this time to call your attention to the following.

The law provides that the Board of Elections make copies of the enrollment and it would be appreciated if the Supervisors would indicate to this Board whether they desire an additional copy of enrollment, one for each member of the Supervisors, as well as one for each Town Clerk as was directed last year. The added enrollment of women will increase the number of enrollment and for this work including the usual allowance made for the

stenographer provision should be made for the sum of $150.00 to be drawn as needs may require for such work.

Request is also made for the usual sum of $200.00 on which the Commissioners of Election may draw through the purchasing Committee to meet the expenses which have to be paid for in cash as they are incurred.

We also ask for the usual appropriation for the salaries of $425.00 to each of the Commissioners and $900.00 for the Chief Clerk of the Board.

We trust the above request for the appropriation may have your recommendation.

Mr. Floyd P. King,
Clerk of the Board of Supervisors,
Franklin County,
Malone, N. Y.

Dear Sir:—

Complying with the request of the Board of Supervisors that reports be made with the year beginning with November 1st and closing October 31st and in compliance with that provision of the Election Law requiring the Board of Elections to certify annually to the Clerk of the Board of Supervisors the total amount of its expenses for such year we, herewith, submit such report and certification.

The expense indicated there-in includes $244.56 which was referred to in our report last year and properly belongs in last years account but for which no bills had been rendered. This leaves the net expense of the Board of Elections for the year $5301.41 which is but a trifle over the average for the past five years notwithstanding the general increased cost on all supplies and as well the added electors, election districts and duties inci-

dent to the requirements of the election law in its present form.

Clerk, Board of Supervisors,
Franklin County,
Malone, N. Y.

Dear Sir:

I have your letter of the 2nd. with copy of resolution past Dec. 2nd. 1918 in relation to the Home Guard Uniforms.

At that time I ordered and had published in Malone Evening Telegram, notice that all Uniforms were to be returned or be delivered to George M. Lincoln, Supply Sergeant, or at Armory, and supposed they had practically all been delivered.

The Units of St. Regis Falls, Chateaugay, Tupper Lake and Saranac Lake, were taken over by State as Guard under command of Major Cluett of Saranac Lake. I had some conversation with Major Cluett and believe these Uniforms were not turned in, but

that they were used by these several Units until such time that the State furnished wool uniforms.

Therefore, I do not know what more I could do, as the Home Guard were disbanded and I was relieved from all control or authority.

Very truly yours,

JAY O. BALLARD.

Dear Sir:

I hand you herewith duplicate copies of resolution providing for the completion of the uncompleted portions of the top course of County Highway No. 1250 Moody-Hamilton County Line with waterbound macadam gravel.

Recently there was forwarded to this office a certificate of approval of this change to which a majority of the members of the Board of Supervisors of your county affixed their signature. The special agreement covering this matter has also been executed by the State Comptroller and this Commission, and the contractor is now engaged in completing the work under the terms of that agreement.

In order that the records of this department may be complete it will be necessary that the enclosed resolution be approved by your board. Will you, therefore, kindly see that the same is presented at the next meeting of your board of Supervisors and when approved return a certified copy of the same to this office.

Very truly yours,

I. J. MORRIS.
Secretary.

TO THE HONORABLE BOARD OF SUPERVISORS:

L. P. Demars, Chairman, L. C. Bowen, H. N. Ramsdell.

Whereas, on the 20th day of February 1915, the Board of Supervisors of Franklin County, adopted a resolution approving the maps, plans, specifications and estimate of cost for the improvement by State aid of Moody-Hamilton County Line Road No. 1250 and appropriated the county's and town's share of the estimated cost thereof, and

Whereas, A communication has been received from the State Commission of Highways notifying this Board of Supervisors that owing to the uncertainty and delays in obtaining shipments of bituminous material and also on account of the needs of the Federal Government for this material, it has been deemed advisable to provide for the completion of the uncompleted portions of the top course of the highway with waterbound macadam, gravel at a net decrease in cost.

Resolved: That the original maps, plans, specifications and estimate of cost as revised to conform with the above described modification be and are hereby approved; and the resolution heretofore adopted by this Board in regard to said road No. 1250 are hereby made applicable to said revised maps, plans, specifications and estimate of cost.

It is further Resolved, That the Clerk of this Board is hereby directed to forthwith transmit a certified copy of the foregoing resolution to the State Commission of Highways.

You may be interested to know more about what has been done by the Home Defense Committee in connection with war work. In May, 1917, through a Director appointed by the Governor, it conducted the Military Census which was an enrollment of every man and woman in the County between the ages of 18 and 45. It accepted responsibility for the county food conservation pledge card campaign, and later it distributed the 1918 "Home Cards" for the Food Administration, co-operating with the United States Public Service Reserve it made an enrollment of Shipyard volunteers and other men who were skilled in various trades. It has acted for the War Industries Board in controlling building op-

erations throughout the County, and in organizing merchants in conservation movements. By direction of the Council of National Defense, a Legal Service Committee, consisting of lawyers scattered throughout the County, was appointed for the purpose of helping drafted men and their dependents. Appeals could be made to this Committee, and from it secured without cost information as to procedure in recovering part of a soldier's pay, in securing their legal allowance, and in applying for war risk insurance, and in avoiding embarassing litigation. Investigations for the Military Intelligence Division of the War Department have been made and special inquiries for the Bureau of War Risk Insurance in an important feature of work that will probably continue until the American Army is demobolized.

The State Defense Council suggests that for the next six months at least, that all County Home Defense Committees maintain their organizations intact, so that when a definite program is adopted by the Federal Government these organizations may be ready to serve. It is also suggested that County Home Defense Committees begin at once the preparation of an Honor Roll, to include the names of all men from each county who have been in the Military or Naval Service of the country from the time the United States entered the war down to November 11th, 1918, when the armistice was arranged. This is an important undertaking both for the County and the State, and the most painstaking efforts will be made to make the record complete.

The Home Defense Committee has been active in apprehending the disloyal, the seditious, those who tried to evade the draft, and those who deserted from the army or navy. It has given council and advice to individuals and to organizations. It has assisted in many ways to cultivate and stimulate patriotic enthusiasm, and to the very end it will be made useful in its service to the flag.

Yours respectfully,

E. C. RIDER,
Chairman.

Aggregate amount apportioned as above		$3877.83

The deduction from the share of Bombay of the sum of $2.14 was made necessary for the following reason: In 1906 there was a mortgage recorded, made by Richards to Connelly, bearing serial number B 58, which covered lands in both Franklin and St. Lawrence Counties. The mortgage tax paid upon this mortgage was never apportioned between the Counties, but the whole tax was credited to the Town of Bombay, Franklin County. The County Clerk had the tax collected upon that mortgage apportioned this past year, and the share that was apportioned to St. Lwrence County was therefore deducted from the tax of Bombay this year. The County of St. Lawrence was reimbursed for the amount due them on this mortgage pursuant to refund order No. 9058 of the State Tax Commission.

In tabulating the Mortgage Taxes we find that the books balanced up to November 1st, 1918.

Respectfully submitted,

GEO. W. HARRIS,
L. C. BOWEN,
CHAS. J. RILEY.

Motion by Mr. Howard: That the report be adopted and that this shall be sufficient warrant to the County Treasurer for the payment of the foregoing amounts to the proper town officers for said towns and village treasurer for said villages, according to law, and the amount due the several towns be credited on tax book by the Clerk of the Board of Supervisors. Carried.

Minutes of the nineteenth day read and approved.

Clerk read: A communication from the Broome County Board of Supervisors, together with a resolution adopted, relating to the attitude to be taken by the United States on indemnities and alliances at the coming Peace Conference.

Motion by Mr. Demars: That the Chairman appoint a committee of three to report to the Board. Carried.

The Chairman appointed as such committee Messrs. Demars, Harris and McKenna.

Clerk read: A communication from Ellsworth C. Lawrence, District Attorney of Franklin County, relating to an appropriation for his office expenses during the ensuing year.

Motion by Mr. Howard: That the matter be referred to the Committee on Appropriations. Carried.

Clerk read:

Resolution offered by Mr. Demars:

Whereas, at the general State election held on the 5th day of November, 1918, the people of the State of New York voted favorably on a proposition which had for its purpose the construction of a State Highway from Saranac Lake to Long Lake and thence to Old Forge via Blue Mountain and Raquette Lake, and

Whereas, the County of Franklin has constructed at its own

expense a road from Saranac Lake to the Town of Altamont boundary line, which road is on the route hereafter mentioned, and

Whereas, the County of Franklin and the State of New York at a joint expense have already constructed eleven miles and provides to be constructed three and one-half miles of what is known as State Highway, and that the County of Hamilton and the State of New York, jointly, have constructed and provided to be constructed the balance of the mileage (about fourteen miles) to Long Lake; be it

Resolved, That the Board of Supervisors representing their constituents, the people of Franklin County, request that the proposed highway which was voted favorably at the election held on the 5th day of November, 1918, be built from Saranac Lake to Long Lake via Saranac Inn and Tupper Lake; and, be it further

Resolved, That it is the desire of this Board that the highway law be amended so as to permit the County of Franklin to transfer the mileage of County Road before mentioned to the State of New York for maintenance and upkeep; and, be it further

Resolved, That our representatives in the legislature, Senator N. M. Marshall and Assemblyman W. T. Thayer, be requested to use their best efforts and influence to secure such legislation which will permit the County of Franklin to transfer to the State of New York the maintenance and upkeep of that part of the County Road System above mentioned, namely from Saranac Lake to the boundary line of the Town of Altamont; and be it further

Resolved, That a certified copy of the resolution be sent to Senator Marshall and Assemblyman Thayer, and to the State Highway Department for their information as to the desire of this Board.

Motion by Mr. Howard: That the resolution be adopted. Carried.

Clerk read:—

TO THE HONORABLE BOARD OF SUPERVISORS.

Your Committee appointed to examine and audit accounts and books of the Franklin County Road Commission respectfully report:

First—We have examined all the vouchers and payrolls and find that they have been duly audited by Mr. Oakes, the official auditor, and by Mr. Gick, State Auditor, and that all said vouchers have been signed by a majority of the Franklin County Road Commission and are correct in every respect.

Second—The account books have been kept and accounts class-

ified as heretofore, which system of accounts cannot, in the opinion of your Committee, be improved upon.

Third—We find that recommendations made by your Committee in its report of December 12th, 1917, have been carried out, except that the monthly statements have been made out by the County Road Commission instead of by the County Treasurer.

The balance will agree when the Treasurer has transferred from his General Account $15,000.00 which belongs to the Franklin County Road Commission Maintenance Fund. The transfer was not made by the Treasurer in time to have it included in his report, hence the difference of $15,000.00 in the balance as reported by the Treasurer and the Commission.

Fourth—We find that the amount estimated or recommended by the Commission to be raised for maintenance of County Road System, namely $40,000.00 by the County and $20,000.00 by the State, as its share, or a total of $60,000.00 is very conservative. Therefore we recommend that there be raised by the County as its share, the amount recommended by the Commission, $40,000.00, and the amount be included in this year's tax budget. This amount, in the opinion of this Committee, is little enough when conditions of the County Road System are taken into consideration.

Fifth—We find that the amount stated as necessary to be raised this year to pay interest and bonds is correct, namely $20,750.00 for interest and $10,000.00 to retire ten bonds, or a total of $30,750.00 be raised and the amount be included in this year's tax budget for the purpose mentioned above.

Respectfully submitted,

L. P. DEMARS,
F. R. WILSON,
H. N. RAMSDELL,
Committee.

Clerk read:

TO THE HONORABLE BOARD OF SUPERVISORS OF FRANKLIN COUNTY:

Your Committee on County and Supreme Courts respectfully report as follows:-

We find that the Old book typewriter that has been in use for a long period of time and is entirely worn out and unfit for use, and so far as your Committee can ascertain, is entirely worthless as no allowance will be made for it in exchange for a new typewriter hereinafter referred to. We recommend that the method of recording in the Surrogate's Office be changed to the same method now used in the County Clerk's Office known as the loose leaf method, and for such purpose it will be necessary to purchase a new typewriter known as the Remington No. 10 C. 14 in. No. 360 key board, No. 6 type. letter space 10 per in. and the price quoted is $110.00.

A new loose leaf book for recording the wills will cost approximately $35.00 and we recommend the purchase of the same. The present typewriter in the Surrogate's office can be returned and an allowance of $20.00 will be made for it, but the Surrogate informs this Committee that it is worth more than that to keep in the office for use in an emergency in case the other should break down at any time, as the work could be done on this one temporarily, and it would be worth to the County more than $20.00 to keep for this purpose. We recommend the purchase of a new machine at $110.00.

The sum of $300.00 has been appropriated for a number of years for the expenses of the office of the Surrogate and County Judge for printing Blanks, postage, typewriter supplies and stationary, telephone and traveling expenses. We recommend the sum of $300.00 be appropriated for that purpose during the coming year. The items are as follows:

I typewriter, ...	$ 110.00
I record book, loose leaf, ...	35.00
Office expenses and supplies	300.00
	$ 445.00

All of which is respectfully submitted,

For the Year Ending October 31st, 1918

TO THE HONORABLE BOARD OF SUPERVISORS:

In presenting our report we believe the most serious problem which confronts the County today is the maintenance of our County Road System, and certainly the season of 1918 rendered that problem more serious. Probably never before, and we hope never again, will such conditions prevail.

Few, except the Supervisors themselves, realize the handicap under which we worked during the past season. Labor has been difficult to get and difficult to hold; wages have constantly increased, and at the same time the efficiency of labor available has decreased. Added to this, material shortage, always a troublesome factor in road operation, has been acute. Prices of materials have risen steadily and owing to Government demands and the unsettled condition of the market, material men refused to quote prices. Deliveries were very uncertain.

Later, other problems less serious perhaps, but in the aggregate quite serious enough, resulted from circumstances attendant upon the Country's entrance into the world war. Road projects and purchase of materials were restricted to approval by the Government, which was a distinct hardship. Such approval was difficult to obtain; but in spite of these hindrances and annoyances work was kept going in Franklin County with asphalt and oil carried over from 1917, and we feel that we did well considering everything.

In view of the past season's experience in obtaining materials and with the urgent need thereof in mind, after some difficulty we procured Government approval on material to commence next season's work which approval was later rendered unnecessary by the declaration of peace, and the funds for which were then and now are available.

You will note, therefore, that the large balance shown by this report as existing on Nov. 1st, was the amount purposely saved for the purchase of material with which to commence next sea-

son'e work, and that the material has already been purchased, and we expect deliveries to be started within a short time.

With this material on hand and a return to something like semblance to normal conditions we hope to obtain better results another year.

The following is a list of work performed on different roads, the cost of which is shown under the town which they traverse:

NEW CONSTRUCTION.

BURKE HILLS—This work brings to a close the construction work of the County System. This piece was 750 lin. ft. long built with bituminous top 12 ft. wide 4 in. thick with an asphalt pour of 2.25 gals. per sq. yd., 700 lin. ft. of sub-base 6 in. thick, retaining wall 6 ft. high, 2 ft thick, 145 lin. ft. long, cobble gutter 600 lin. ft. long and 3 ft. wide at a cost of $1855.09, which includes approximately 500 cu. yds. of crushed stone, which we will use for maintenance work.

RESURFACE WORK.

HUNTER'S HOME ROAD, Town of Franklin: Resurfacing new crushed stone bituminous top 10 ft. wide, 4 in. thick, 2.2 miles long at a cost of $8428.35.

CHATEAUGAY TO BANNER HOUSE, Town of Chateaugay: Resurfacing new crushed stone bituminous top 10 ft. wide, 4 in. thick, 2.25 miles long with 1|5 of a mile of sub-base 10 ft. wide and 9 in. thick at a cost of $10,790.18.

RECONSTRUCTION CONCRETE CULVERTS.

Two 2 ft. by 2 ft. by 22 ft. concrete culverts at Chasm Falls in the town of Malone on the County Road System running south from Malone to Duane Center, also one concrete culvert on the Malone Burke Road known as the Morgan Culvert west of Trout River at a cost of $1173.18.

RECONSTRUCTION, PATCHING AND OILING.

On the Forest Home Road and the Wawbeek Road in the Town of Harrietstown, also the Saranac Inn to Wawbeek Corner in the Town of Santa Clara at a cost of $4020.35.

OILING AND COVER COAT.

Two miles on Chateaugay Lake County System Road from Banner House to Brainardsville.

Five miles on Malone Duane Co. Road from Malone to Shepard Bridge at a cost of $5000.00, which includes patching and graveling shoulders.

PATCHING AND GENERAL MAINTENANCE.

On all County System Roads in the Towns of Burke, Malone, Bangor, Brandon, Ft. Covington, Bombay, Moira, Dickinson, Waverly, Santa Clara, Constable, Duane and Westville at a cost of $8000.

RECOMMENDATIONS.

In making our recommendations for the year of 1919 we are in the same position as last season with the usual amount of maintenance and necessary resurface work on deteriorated roads which require adequate funds to carry on to completion our reconstruction with bituminous top. We have resurface work commenced in the towns of Franklin, Chateaugay, Moira and Dickinson and should start resurface work on County Road from Saranac Inn to Altamont Town Line.

One and one-half miles should be added to the Chateaugay Lake Road in the Towns of Chateaugay and Bellmont which will finish that section to Brainardsville. This section of the Chateaugay Lake Road is in very bad condition. The remainder of this section from Popeville to the Banner House can be held in good condition for a number of years by patching and oiling.

Two miles or more should be added to the Hunter's Home road, Town of Franklin. We have in the past two seasons completed 4.2 miles of Bituminous Macadam on this section. The total mileage of this road is 9.26 miles; the 4.2 miles finished leaving approximately 5 miles of road which is in a deplorable condition and has heavy auto traffic to Loon Lake in the summer season.

Two or three miles should be resurfaced with Bituminous Macadam in the Town of Moira going toward Dickinson Center as this road is becoming almost impassable.

In the Towns of Santa Clara and Harrietstown road known as the Saranac Inn-Wawbeek-Tupper Lake, we have approximately 13 miles of oiled water-bound Macadam which has deteriorated very much in the past season. This road will soon become a trunk line from Long Lake as very little remains to be finished on the State Road Contracts which connects with this route. This is an extraordinary and very expensive piece of work which should be commenced next season with at least two miles of resurface Bituminous Macadam. This should be favorably considered as it is clearly established that maintenance is no longer possible except at prohibitive cost.

The following roads that were mentioned under last report that should be oiled we were unable to do anything with thih season, not being able to purchase the material. They should be given attention this year, as they are water bound Macadam that have never received oil and are fast going to pieces:

Ft. Covington Center to Fry's Corners to Bombay, 4 miles.

Bombay to Russell's Corner toward Hogansburg, 4 miles.

Moira to St. Lawrence County Line, 3 miles.

Santa Clara to St. Regis Falls, 4 miles; together with the general repairs on all other roads that make up our County System of 137 miles.

ESTIMATE AND RECOMMENDATION.

To accomplish the foregoing work as recommended, it will, in our judgment, with labor advanced 50 per cent. and material 100 per cent., require $60,000 and we recommed that the Board of Supervisors oppropriate the sum of $40,000 for resurface Bituminous Top and maintenance of the County Road System for the highway year of 1919.

With the 50 per cent. of State Aid to be received as provided for by Chapter 137 of the Laws of 1911, it will furnish the estimated amount of $60,000.

MOTOR TRUCK.

Our records show that our Garford Truck worked 193 days during the season at a saving of $4825.00 to the County in team hire, demonstrating the advantage of motor vehicles in road work.

The speedometer registers a total of 22,728 miles in three seasons.

COMPENSATION INSURANCE.

On Oct. 31st, 1918, we cancelled our Compensation Insurance policy and have taken out a policy for the term of our fiscal year, the estimated premium on which is $327.02.

The premium on actual pay roll for the year June 16th, 1917, to June 16th, 1918, and for the period June 16th, 1918, to Nov. 1, 1918, as audited by the Auditor of the Travelers' Insurance Company is $1807.27. An estimated premium of $284.21 was paid at the 1917 session of the Board of Supervisors, leaving a balance due of $1523.06 on above named policies.

Note: Said permium covers two seasons of road building.

TENTH ANNUAL REPORT

OF THE

County Superintendent of Highways for the Year Ending October 31st, 1918

To The Honorable Board of Supervisors:

The undersigned County Superintendent of Highways would respectfully submit the following report:

The season of 1918 as regards road work has not been as satisfactory as in the past seasons. In preparing plans for this year's work it became necessary to give first consideration to war conditions. This involved not only the effect which the present abnormal labor and material conditions would have upon the con duct of the work, but involved the efficiency of the labor itself.

We have made some permanent improvements, but, as a whole the highway moneys in the different towns this year have been spent in maintaining the roads that were in need of repair. Many new concrete culverts have been built, also a number of concrete bridges. Some towns were unable to expend the full amount of Highway moneys available owing to the scarcity of labor.

I am very much pleased to call your attention to the very efficient manner of Highway improvement that was accomplished in the Town of Franklin known as the Port Kent-Hopkinton Turnpike by convict labor under the direction of Prison Engineer J. C. Finch with H. J. Short as superintendent. This piece of work of approximately five miles cannot be commended too highly.

EXPENDITURES.

The following is a statement of the expenses of the County Clerk's office from November 1st, 1917, to October 31st, 1918, representing the salary of the Clerk and bills against the office which have been O. K.'d by the Clerk:

Salary of the County Clerk	$ 4000.00
Books for recording records	373.32
Supplies and stationery	41.68
Express and cartage	27.17
Postage	105.00
Cleaning the office	14.00

Telephone	60.18
Miscellaneous supplies	18.19
Printing	81.67
Total expense for the year	$4721.21

The receipts for the past year were less than in either of the two previous years of my administration, owing to the fact that the business of the office was less than in the former years. There were two hundred and forty-one (241) less deeds recorded, seventy (70) less assignment of mortgages, and sixty-two (62) less mortgages during the year 1918 than in 1917, which would more than account for the deficiency. However, the business transacted in all other branches of the work of the office was less than in previous years. Conditions caused by the war doubtless caused the decrease in the receipts, and now that peace is assured I am confident that the receipts will increase in the future to the amount realized during the other two years of my term of office.

As this is the last year of my first term of office as County Clerk of this County I wish to call the attention of your Honorable Board to the finances and conduct of the office during the three years of my administration. Previous to assuming the duties of the office the County realized from the receipts approximately the sum of $3,600.00 each year, while for the first two years of my administration and before the results of the war were felt, my receipts averaged about $4250.00, a net gain to the county of about $650.00 each year, and now that the war is over I am confident that they will average that amount in the future.

The receipts for my first fiscal year including the two months receipts of my predecessor were	$4245.68
The receipts for my second year were	4247.48
The receipts for my third year were	3716.73

Previous to my administration it was necessary for your Honorable Board to appropriate the sum of $500.00 each year to make up the deficit in the salary fund of the Clerk, and such sum was appropriated and practically all used each year for that purpose. During my administration, however, it has not been necessary to appropriate any amount for the Clerk's salary, as the receipts of the office have not only paid the salary of the Clerk but have left a balance to the credit of the Clerk's salary fund. There is at present in the hands of the County Treasurer to the credit of the Clerk's salary fund the sum of $843.70.

It would seem fair to assume from the above statement of facts that there is a direst saving to the County each year of my administration of at least $600.00 in the receipts of the office, and added to that the saving of the appropriation of $500.00 for the deficit in the Clerk's salary, would make a direct saving of

$1100. each year, inasmuch as there is no longer any necessity for the $500 appropriation to meet the deficit in the Clerk's salary and as the receipts of the office have increased about $600 each year. The increase in the receipts is due in no small measure to the careful attention to the service of the public in the matter of preparing searches and abstracts of title, a branch of the work which is being gradually revived and which is growing each year.

However, the receipts of the office are limited, as the fees to be charged are regulated by statute and have not been changed materially since they were enacted into law in the year 1864. A great many of the fees are too small and are not commensurate with the amount of work and responsibility involved. The fees cannot be changed to conform to the increased cost of conducting the recording office without legislative enactment, and many counties of the State have had a special Act passed increasing and making more certain the fees of their recording offices. After a lapse of fifty-four years it would seem that it was time that an upward revision of the fees of the office should be made. Other counties of our State have accomplished this fact and good business policy on the part of Franklin County would seem to warrant the support of such an Act, so that the fees of the office could be kept abreast of the times, and the expenses of maintaining the office be paid in a greater degree by its patrons. I would recommend that our Senator and Assemblyman be requested to introduce in the legislature of the State an Act to revise the County Clerk's fees and secure the passage of the same, if possible.

I would like to bring to your attention some facts relative to the salary of the County Clerk. By an act of your Honorable Board passed in 1912 the salary of the County Clerk was fixed at $4000.00, to take effect January 1st, 1913. Under the said Act the Clerk pays the help in the office out of his salary, and as you are aware wages have increased nearly double what they were in 1912, and it is now necessary to expend considerable more in the hiring of competent help than it was when the salary was fixed. The Board of Supervisors of 1912, in arriving at the amount to fix the salary, no doubt took into consideration, among other things, the wages which it would be necessary for the Clerk to pay to properly conduct the business of the office, and upon that basis arrived at the amount of $4000.00. However, conditions have changed very materially since that time and the decided increase in wages must be met by the Clerk, although his salary remains the same. It would seem to be no more than absolute fairness for your Honorable Board to take into consideration this increase in the wages of help and readjust the salary of the Clerk so that he would be in a position to fully meet the new conditions. An increase in the salary of the Clerk would be merited, and justifiable, under the changed conditions.

During my term of office I have made some changes in the conduct of the office. The loose leaf system of recording has been installed and has met with the general approval which it merits. The work is much lighter and more pleasant for the operators of the machines, and the work performed is more neat and accurate. It has been accepted as a decided improvement over the old system of recording with heavy, unwieldy and expensive book machines.

A system of filing all the papers in an action or special proceeding in one file and a record kept of each paper filed, has been adopted in place of the former system of filing each paper in a separate file. The advantage of the new system over the old is apparent, as under the new system a record is kept of each paper filed and the papers in each action are all filed together in one file by themselves. Formerly the papers in any given action were scattered throughout several different files and it required considerable time to find them. The new system requires more time and labor but the result attained, is in my opinion, well worth the effort.

Another matter which I desire to call to your attention is the lighting system now in use in the County Clerk's office. The present system is antiquated and out of date and should be changed to a modern indirect lighting system. The lights now in use are ruinous to the eyes and many complaints are being constantly voiced by the patrons of the office and those who must work in the office about the poor lights. In the interests of the public and the patrons and clerks in the office I would recommend that an indirect lighting system be installed which would be a credit to Franklin County and its County Clerk's office.

All of which is respectfully submitted.

November 1st, 1918. F. R. KIRK,

County Clerk.

STATE OF NEW YORK, County of Franklin, ss.:

F. R. Kirk, being duly sworn deposes and says that he is Clerk of Franklin County, that he has read the foregoing report and knows the contents thereof, and that the same is true to the best of his knowledge and belief.

Subscribed and sworn to before me this 4th day of December, 1918. B. M. MILLER,

Notary Public.

REPORT OF THE SURROGATE

1918.

To the Honorable Board of Supervisors of Franklin County:—

In accordance with the provisions of law and a resolution of the Board of Supervisors, I herewith hand you my report for the year 1918, together with statement of the amount of fees received by the Clerk of the Surrogate's Court as prescribed by law.

I also attach hereto a statement of the Insanity Cases which have come before the County Court during the past year.

I have called the attention of the Board to the fact that some arrangement will have to be made to increase the capacity of the filing vault in the Surrogate's Office as the cases put in recently are practically full, and as many times heretofore I have called your attention to the fact that there is some doubt as to the vault being fire proof. I have attached hereto a letter received from the Division of Archives of the University of the State of New York calling attention to the fact of the crowded condition of the vault and its fire resisting qualities. I understand a similar letter was sent to the Chairman of the Board.

By reason of the increase in the cost of office supplies and material, I believe the account for the Surrogate's Office would be slightly overdrawn if some of the bills that are now outstanding were to come in for this year. I will be able to ascertain the amount of these bills in the course of a week or ten days so I can supplement this report to the committee if they require me to do so, but I think an examination of the account in the County Treasurer's Office will give them such information as they will need in making an appropriation for the expenses of the office for the coming year.

The book typewriter which has been in the Surrogate's Office for about twenty years is practically worn out so that the repairs on the same are so large an item that it is my judgment that it would be more profitable to dispose of it and procure a new method of recording the wills and other papers that the law requires to be recorded. It is now possible to procure what is known as loose leaf record books and with a Remington Typewriter with the proper device these loose leaf record books can be used, and the same machine can be used for correspondence. The book of records which is used on the book machine is nearly filled and probably within the course of a few months, this record book will be completed, in which event I recommend that the committee make arrangements to change to the loose leaf recording system, the same that is now used in the county clerk's office at the present time.

During the year I have reduced the expenses for blanks in the office as far as possible by cutting down the size and eliminating certain blanks that were not required by law but used by reason of custom, but an increase in the cost of printing has added to the expense. It is possible that one or two additional blanks may be dispensed with by changing the form of some of the other blanks but this cannot be done until the supply we now have on hand is exhausted.

The work and records of the office are increasing every year and have increased during the last year much more rapidly than heretofore. If the committee in charge of the court house and jail deemed it wise to make some arrangment to construct a new vault, I would suggest that it be done by the work of the prisoners in the jail. I think that a suitable vault could be built on the east side of the court house next to the Kirk-Maher building in such a way as not to obstruct the light of any of the offices on that side of the building, and by cutting a door through the wall in the Surrogate's Office and using the present door that is in the vault in the Surrogate's Office closing up that opening by brick. A vault could be constructed that would be fire proof and not very expensive as practically all the work could be done by the prisoners in the jail with, perhaps, one competent man to superintend and build the forms for the concrete work, in which case it would be absolutely fire proof. I would be gald to consult with the committee before they make any recommendations on this subject.

I also attach an affidavit of the Clerk with a statement of the amount of fees received during the year as required by law.

The employees of the office are now the same as heretofore, a surrogate's clerk with a salary of $1,000 a year and a stenographer of the Surrogate's Court, who also acts as stenographer of the County Court, with a salary of $1,000 a year, and I recommend that each of these appropriations be made for the coming year.

All of which is respectfully submitted.

FRED'K G. PADDOCK,

Surrogate.

Hon. Frederick G. Paddock,
Surrogate of Franklin County,
Malone, N. Y.

Dear Sir:—

In an inspection of your office made by me on September 7th,

it was found that the records of your office are in good condition, but that the vault is badly crowded and constructed in such a way as to make one doubt of its fire-resisting qualities in case of a serious fire, in which the tower should fall down.

I have written to Mr. John Redwood, the Chairman of the Board of Supervisors, to call attention to this matter and hope that some action may be taken by the board to remedy the condition complained of. Very truly yours,

A. J. VAN LAER,

VL-G. Archivist.

Since this Tuberculosis work was first taken up in Franklin County, we have encountered great difficulty in admitting our advanced cases of Tuberculosis because of a lack of vacancies. At the present time we have 25 advanced cases of Tuberculosis among the resident population, 12 of this number being greatly in need of sanitorium treatment. The remaining number may safely remain at home with home instruction and supervision. The two sanatoriums caring for advanced cases, as you already know, are St. Mary's of the Lake and Gabriels Sanatorium. Gabriels have no vacancies, at least we have not been able to admit any of our patients there. Since April we have been able to send only one patient to St. Mary's of the Lake and have been waiting for months for the first vacancy. At one time we had an opening for patients at St. John's Contagious Hospital at Ogdensburg. The patients complained of care and treatment and refused to stay.

We are doing the best we can for the welfare of the patients and trying to admit them as fast as possible but you can readily see the situation. A very great deal may be done by supervision and instruction in the homes, but this has not been very success-

ful because of the inability to visit the homes often enough due to insufficient expense allowance. Raybrook Sanitorium has been very prompt in admitting our cases suitable for treatment there. During the past eight months four patients have been rejected from Raybrook and three whose applications were accepted refused to go. Rainbow Sanitorium have been very considerate and have offered to take cases rejected from Raybrook who were not running a temperature over 100 degrees.

The following is an example of the cases with which we have to deal. The mother of a large family is ill with tuberculosis, father is strictly N. G. and barely earns enough to support the family of eight ranging in age from 12 years to 6 months. The children are all under fed and in need of nourishing food. The mother is a source of infection to the whole family, since three rooms comprise their living quarters and in a short time will be incapacitated for work. Through the Tuberculosis Fund we are able to give the mother milk and eggs for her own use. She needs sanitorium treatment but nothing is available. Would it not be better, in your opinion, if we had some place to send such moderately advanced cases for at least six months and to put some woman in the home to care for the children than to let such cases run along until the mother is beyond help and then have the entire family on our hands? This, and similar instances are brought to our attention from time to time. Six needy cases were given relief through the Tuberculosis Fund consisting in most cases of milk and eggs.

The traveling about is done mainly by rail and is very inconvenient at times. It necessitates great expenditure of time and does not enable one to do efficient work. In this way only the central part of the town or village is reached and not the local districts where the majority of cases occur. Some times a whole day is spent in order to do 20 minutes' work. Auto service is so expensive that it is employed only when absolutely necessary. The present appropriation is not sufficient to allow one visit a month to each town. Much more could be accomplished if I were able to see the patients more often, especially with the advanced cases. I ask you gentlemen to consider the presnt allowance and means of transportation and recommend something more satisfactory.

I wish to thank the members of the Board of Supervisors for their assistance, the State Department of Health for their co-operation and supply of records which they furnished us free, and also for the assistance of Miss Kuhlman, State Supervising Nurse.

So far throughout the County, I have been received very cordially by the people; everyone seems interested and desirous of helping and I ask your continued co-operation in the future.

All of which is respectfully submitted.

BESSIE M. LAVIER, R. N.,

County Visiting Nurse.
